The U. S. steamer *Enterprise*, commander Selfridge, arrived off the Brooklyn navy yard yesterday afternoon after a voyage of five years exploring the Amazon and its principal tributaries, more particularly Madeira. Lieut. Selfridge says that the exploration was a perfect success. The Madeira was found navigable for 500 miles, and the captain adds: "We found the volume of the Amazon to be three million cubic feet a second, and if the Mississippi were flowing into it it would not change its surface perceptibly."

FORT FETTERMAN, Sept. 26.—The mail from Kellogg was jumped this afternoon about forty miles north of here by 12 masked men, who succeeded in surprising the two soldiers who were acting as escort and getting the drop on them before they had an opportunity to use their weapons. The horses and arms of the cavalrymen were taken and the mail thoroughly ransacked. Tillotson & Snyder, stockmen here and at McKinney, were passengers on the mail wagon, but having been relieved of upwards of $300 a few days before on their way from old McKinney to Cheyenne on Clear Fork, the highwaymen found very little booty from them. This section of Wyoming is infested with horse-thieves, robbers and scoundrels at the present time.

The Regular Robbery at Deadwood.

DEADWOOD, Sept. 27.—A treasure coach from Cheyenne and Black Hills stage line arrived here yesterday morning, was stopped by armed men at Canyon Springs, 45 miles south of here, at 3 o'clock P. M. Two passengers, Capt. Smith and Gale Hill were slightly wounded, and one passenger, H. O. Scott, a telegraph operator, was killed. Scott was slightly hurt by a ball grazing the top of his head, rendering him insensible. Scott Davis escaped unhurt. Two stockholders were badly wounded. One was shot by Davis, the other by Gale Hill, who shot through a window, after being hurt. Hill was run into the timber, and "but a short time was occupied in opening the mail sack contained $25,000 in gold bullion, some gold jewelry and a small amount of currency, all of which was secured by the robbers."

OREGON LEGISLATURE.

Tenth Biennial Session.

House.

EVENING SESSION.

SALEM, Sept 27.

House met at 7:30 P. M., and on motion of Galloway, invited the ladies of the Women's Suffrage committee to seats within the bar.

The house resolved itself into committee of the whole, to participate in a discussion with the ladies.

Reed being in the chair he appointed Speaker Thompson, Galloway and Thompson of Multnomah, a committee to wait upon the ladies of the convention, and inform them of the action of the House.

Thompson of Lane, with great courtesy and gallantry, waited upon Mrs. Abigail Scott Duniway and Mrs. Dr. Thompson, and the chairman offered them seats on the rostrum.

Being introduced by the chairman, Mrs. Duniway returned thanks for the honor conferred on her as representative of a class of citizens denied the privilege of suffrage. The laws of Oregon were prefaced by the Declaration of Independence, containing the immortal words of Thomas Jefferson which she proceeded to recite to the audience claiming that they rightly referred to the rights of man and woman alike. She depicted the patient suffering of the women of the states in the absence of political rights. The generic term man always means woman, also when she commits a crime that merits a penalty, or when she refuses to pay the taxes. We are not here to claim that privileges are withheld, but that our rights are withheld. Latterly this aristocracy of sex has granted us many privileges, but our rights are yet withheld. She paraphrased the Declaration of Independence as she made her points, showing how she claimed the wrongs of the colonies to be paralleled by the treatment of woman; that taxation without representation is as unbearable for women as men, and class legislation as obnoxious. The speaker narrated a trial she once witnessed in a neighboring territory, of a woman who had committed a nameless crime. Save herself and the prisoner there was no other woman in that court room. She described the typical juror—a few of whom twelve men of sufficient ignorance were discovered and the trial proceeded. The scenes of that woman's life, she would have died rather than divulge, were dragged before that stolid jury and attendant men and boys. Only God and woman exotic have been permitted to sit in judgment on that woman, for only woman could know her trial and her crime. Mrs. Duniway was quite forcible and eloquent when reciting this pitiful tale. She treated "the unwarrantable jurisdiction of the aristocracy of sex," with bitter sarcasm, and traced her argument patiently through the premises of the Declaration of Independence.

She arraigned the aristocracy of sex with having violated the basic principles of the common law—the amendments to the constitution of the United States. Married women are servants without wages, their property rights are being changed, but they are not yet equals of men before the law. She cited the case of Tompkins, of Wasco county, illegally convicted of crime and sent to the state prison, while justice levied on the property his wife had carried to pay the expenses of his illegal conviction. Where should man get the right to legislate for woman in all cases whatsoever? Chief Justice Waite has decided that women have no political rights that men should respect; but this decision may be as temporary as the fiat of chief Justice Taney proved to be in the Dred Scott case. Language cannot be stronger than in the constitution of Oregon, but it is translated so as not to recognize the rights of women. Equality is restricted by law to "white male citizens," but since that was enacted native born negroes and mulattoes are admitted to be citizens. She demanded equality with men before the law in everything, and that amendments to the state constitution should now be framed to recognize the rights of women. She eulogized the temple that was eventually to be erected to Freedom, when the rights of women should be recognized—recognizing meanwhile that the area of woman's privileges is constantly being enlarged. A bill is soon to be introduced providing for an amendment of the state constitution, removing forever the aristocracy of sex. Many other states are watching the result of the efforts of the women of far off Oregon. The above is a poor synopsis of Mrs. Duniway's really eloquent and well prepared effort.

The chairman then introduced Mrs. Dr Thompson, who said she believed the republican form of government is only right where men and women stand together as they do in the family relation. Their interests are identical. Trammel the women of the land and noble sons cannot be born. She alluded to her remarks made last winter before a congressional committee at Washington. It is impossible to give in brief any idea of his lady's address. She spoke with great fluency and extemporo not with a clear thread of argument, but with real eloquence detailing the evils of society and showing what she believed would be the result if women took part in government. Senator Edmonds told her in Washington that men have no rights, it is only conventions by men will not have rights until they enfranchise women and elevate society.

At the close of Mrs. Thompson's remarks, that were happily applauded, the committee rose and the house adjourned to Monday, 2 P. M.

WASHINGTON CITY.

A Cabinet Meeting.

WASHINGTON, Sept. 27.—The cabinet to-day considered a large amount of business which had accumulated during the president's recent absence.

There was some conversation concerning a clause in the army appropriation bill prohibiting the use of the army or any part thereof as a *posse commitatus* to aid the civil authorities, etc. This clause, it was said, had in numerous instances been detrimental to the government service. The secretary of war stated, however, that he felt justified in the decision that Gen. Crook should be keen it to be necessary, should afford protection to the Pacific railroads, the government having an interest in the roads and a duty to perform in the safe conveyance of mails.

It was mentioned in cabinet that movements of importance have recently occurred on Rio Grande, and that while late attempts to overthrow the government of Mexico had been unsuccessful, the country is in a bad condition, there being no money to pay the federal officers and army, and the prospects of a stable government every day becomes more faint.

Not an Unfriendly Mission.

WASHINGTON, Sept. 28.—Senor Zammacona, the Mexican minister, says that the purpose of the Mexican government in sending 5,000 troops to the border was to suppress raiding and aid the U. S. troops in putting down lawlessness.

State Service Rejected.

AFTER YEARS OF TESTS IN DIFFERENT climates, this preparation is acknowledged superior to any other in use. We apply it to tin or shingle roofs, leaky awnings and pavings. It forms a heavy elastic coat, does not crack and peel off as ordinary paint, stops all leakage permanently, is proof against moss, sparks, coals of fire, or water.

BUTLER'S "COUP."

We had an account by telegraph of the capture of the Democratic organization in Massachusetts by the characteristic tactics of Ben Butler. Details by mail fill up the picture. The respectable Democrats of the state refused peremptorily to admit that Butler could be a candidate before their convention. But through the aid of the mob element of both parties Butler had secured a large number of delegates to the convention. By some of his strikers who had bribed the persons in charge of the hall in which the convention was to be held, an entrance was effected the evening before, and all night hacks were running from the hotels to the hall, conveying the Butler men by twos and fours, so that by daylight about seven hundred, including delegates and hired retainers, were in the hall, ready for anything. It was the old strategy of the Trojan horse again. When the hour arrived the Butler crowd were in full control. Only a few of their opponents could effect an entrance. The tumultuous horde drowned all opposition with their noise and disorder. When the state central committee fully realized the situation they issued an address denouncing the violence of the Butler faction and declaring the convention postponed for one week. But the Butler gang went on with their work. The Democrats of the state have, however, repudiated the disgraceful proceedings, and have nominated another ticket. It is generally believed by the eastern press that the conduct of the Butler faction will cause the defeat of this political freebooter. The Democratic ticket will draw away from him many thousands of votes, and the result is likely to be the election of Talbot, Republican. It is thought that Butler would have been able to control the Democratic convention without resorting to the disgraceful course that was taken; and if so, the Democratic bolt would have been much less formidable than it is now. It will be gratifying indeed if this characteristic trick shall prove the means of sending him to a final political perdition.

PORTLAND WATER WORKS.

Our water supply should be under control of the city. In former articles we have urged that measures be taken to secure this result. It is probable that an act will pass the legislature authorizing the city to incur the necessary indebtedness. It has been proposed to designate Messrs. W. S. Ladd, H. W. Corbett and A. P. Ankeny as commissioners. Better selections could not be made. There is no one who will not be entirely satisfied to see this large trust placed in these able and responsible hands. There is a still further question. Shall the city undertake the construction of works outright, or shall it confer the propriety, as a strict business proposition, of buying the present works at a fair valuation? It is true that for a portion of the city the present works are inadequate. But some inquiry convinces us, as it will convince any one, that by moderate additional expenditure to supply portions of the city not hitherto included within the system of distribution, abundant water may be furnished for all parts of the city. Another reservoir at a higher level will supply those localities not now within reach of water; and the company have a block in the southwestern part of the city well situated for this purpose. A pump at the Sixth street reservoir would raise water to this new reservoir for supply of all parts of the city lying above present levels. It is certain that the present system can be enlarged and extended so as to give ample supply; but we should be willing to leave that question to be considered by the persons who have been named as commissioners, who doubtless would view the whole subject as a business proposition. A question of this nature is to be treated solely with a view to public interests. If it be found that the water company are willing to sell at a fair valuation, let the commissioners be authorized to consider the subject. If the city shall decide to construct new works there will be a competition which for several years will allow little revenue, since most people have their premises already connected with the pipes owned by the present company, and would not be likely to detach them. But the question of buying the works is to be considered solely on the ground whether the terms may be such as will be advantageous to the city. We are not able to give an opinion on this point, but it is a question which may be safely left to the commissioners, who no doubt would take the testimony of competent engineers and would also be guided by their own judgment as to what would be a good business venture for the city. Few of the members of the legislature can know much about these things. The streams owned by the company, although they do not furnish a full supply, are probably worth more than the works. We are quite willing, if the persons who have been named as commissioners shall be appointed, that the law shall be so framed as to give them discretion in this matter of buying the existing works, and even think it would be good policy to do so. If a good bargain could be had the city should make it. Leave the commissioners free to buy, or erect works as the interests of the city, after full investigation of all the circumstances, may require. We want city water works; we want more water and cheaper water, and desire to see that course taken which will secure the result at least cost and with best assurance of a revenue which will support the enterprise. But it is best to take time to look into this business, so that citizens may be sure that the best thing, whatever it may prove to be, will be done.

INSANE ASYLUM BILL.

Senate bill No 64, introduced by Mr. Watt for an act to provide for the care and keeping of the insane, is a copy in most of its leading features of the bill introduced by Mr. Cochran last session. There are, however, two new sections under which the governor is to be authorized and directed to contract for the keeping of the insane, which contract shall run for ten years from the first October, 1879. The contract must be a rate not exceeding five dollars a week. Proposals are to be advertised for, each bid being accompanied by a bond in the sum of five thousand dollars conditioned that the bidder if awarded the contract will within a specified time execute a bond in the sum of fifty thousand dollars for the faithful performance of the same. A main feature of the bill is one on which we have heretofore commented when reviewing the bill of two years ago, namely that the county sending an insane person to the asylum shall be liable to the state for the maintenance of such person. This, with the contribution from the estate of an insane person liable for the costs of his commitment; that the county shall have a lien upon the estate of a judgment debtor for the support of a wife in the asylum, and against the estate of a wife for support of a husband, and against parents for the support of minor children, is necessary to limit the expense to taxpayers. But there is an active and interested opposition to the bill. It is greatly to be wished that Dr. Hawthorne would allow these things to be considered without intervention through himself and his agents; or, if this is too much to ask, that the legislature would consider the subject on its own merits without regard to these influences. We find no fault with his methods of keeping the insane, but do think the state ought to have the right to make regulations as to commitment and the like, so as to reduce as far as may be practicable the public burdens.

Senator Hill of Georgia has honored himself and done the country a service by publishing a letter on financial matters in which he says that the questions now under discussion will be settled as they have always been settled under like circumstances, and as they only can be settled, by a return to the plain constitutional standard of coin as money, and to a safe paper currency, always equal to, because always convertible into, coin. We shall reach this result by industry, by economy, by consequent reviving business, and by the good common sense of our honest people. Men will then be astonished that they allowed themselves to be deluded by the wild theories of relief quacks who are going to make everybody rich by "fiat-money," instead of by honest labor and economy. These quacks have always appeared in times of severe trials like those through which our people have been and are now passing, and have always disappeared when the trials were over, as ours soon will be over.

We have a trustworthy report that the president of the Oregon and California railroad company has telegraphed that arrangements have been made which will insure the extension of the west side road a distance of fifty miles next year. We greatly hope the legislature will not enact any law which may interfere with construction of railways which the state so greatly needs. Give the railroads a chance. They are now earning almost nothing on the money invested. In connection with this subject we may also say that we hope Mr. Colvig's bill to repeal the act prohibiting persons engaged in steamboating from building railroads, will pass the house as it has passed the senate. The O. S. N. Co. have 35 miles of rails lying at the Cascades which they will begin at once to lay down on a road from Umatilla toward Union and Baker if this law is repealed. The most urgent want of the country is transportation. Why not remove all obstacles as far as possible?

The legislature should not hesitate to pass a bill to lease the state's prison for a term of years to responsible persons, the state reserving full power to prescribe and enforce needful regulations. By so doing an enormous saving may be effected. If the bill which has been offered needs any modifications let them be made; but let us have the bill.

ANOTHER PIONEER GONE.—One by one the pioneers of Oregon are falling by the wayside and passing quietly away to the unseen and unseen land After a long and painful illness Mr Waters Carmon departed this life yesterday morning at an early hour Deceased near Oswego Mr Carmon was born in Pennsylvania on the 20th of September 1812 his parents removed to the state of New York In the year 1822 his parents removed to Sangamon county Illinois where they remained until 1849 Mr Carmon enlisted as a soldier in 1837 (the Indian war) being then only 25 years old He fought through the whole of the campaign In 1838 Mr Carmon was married in marriage to Miss Lucretia Barkman by whom he had four children one died in 1840 during the great gold excitement He came to Oregon in 1850 at which time he has resided in this state He was married to Mrs Lucretia Gar field of whom are still living Mr Carmon settled on a farm in 1853 seven miles from Portland, where he has since resided He was appointed as sawyer and miller for the Siletz Indian reservation which position he filled from 1862 to 1870 Deceased was a member of the M E church for twenty years preceding death and died in the full faith of the Christian faith He was a most worthy citizen and respected by all who knew him His death while not unexpected is deeply regretted Indeed it can be said of him that a good man has gone to his reward

H. R. THOMPSON — This splendid steamer, says the *Inland Empire*, the construction of which was begun in February last made her trial trip on Saturday last in charge of Capt Geo J Ainsworth Mercury charge of Capt Geo J Ainsworth Mercury was also on board the veteran pres ident of the company Capt J C Ainsworth Hon John W Sprague, Superintending En gineer Ankeny and a few invited guests With Chief Delilah at the engines and 100 pounds of steam to the square inch, she made 19 miles per hour and flew along like a passen ger train After rounding the bar below Portland her prow was turned back and for two hours, the rate of speed being 19 miles to the hour The directors began to realize the value of high sides and a deep hull as the great boat shot through the water like a monster or a jar while the *Wide West* of the same flight of speed, would shake the cabin windows. The new boat is the most splendid the fastest stern-wheel boat on the Pacific coast. Though not so richly decorated as her consort below the Cascades, she is a good deal more like a floating palace more than the *Wide West* She cost more work, says interior decora tor, as well as more work, and her dimensions have probably found their limits Builders don't necessarily make boats to suit their fancies nor make boats to suit their fancies but to suit the owners' means and necessities Nevertheless, the capacious cabin of the *Mercury* was well filled Chaplain Stubbs rendered the services notwithstanding his severe illness was such, on account of which he was obliged to shorten his re marks and call upon several Christian sailors to fill up the allotted time We were much pleased to know that Jesus has walked once upon the ocean, and that in Him we can more than be valiantly fighting the good fight of faith. We shall not soon forget those words lighted up the face of one of the converts who witnessed for Christ He stood very near the fountain of light to which he was directing countenance and voice people, and ask you to remember him in your prayers

CIRCUIT COURT PRINTS — The following cases have been assigned to Pacific coast in ventors Jacob Manu, Reno Nev, steam radiator, Zarvey R Leonard San Francisco, cooking stoves, David H Clip per, Stockton, Cal., check rein hooks Thomas Hoyt, San Francisco, steadying gage for lathe cutters, Alpheus F Cherry, Oakland, screw cutting lathes, John H Hunt, Oakland, and John T Best San Francisco, ore washers and amalgamators Patents granted to Pacific coast inventors this week Leonard, San Francisco books En gineer, San Francisco detritus pumps Patent Office, Reno Nev, furnaces for roasting ores, Leopold Balbach San Fran cisco, ingot moulding bullion trade marks Patents issued to residents of Oregon and Washington Territories this week James McCoy San Fran cisco

CORONER.—It was announced at the inquest held by Scott Siddons, the eminent tragedian and accomplished elocutionist Siddons is to play a short short dramatic en gagement in Portland Such, we are informed is the object of that lady's visit to this city She will be accompanied by her hus band and servant only Mrs Scott Siddons will give a series of dramatic readings, in consequence they bring no company She will leave San Francisco for Portland to-morrow.

CONDITIONS OF EMPLOYES.—In addition to the sums subscribed by citizens in this city and collected through the regular channels, the following have been contributed in aid of the fellow sufferers by employes of the O R & N Co Steamer *Wade West* $56 58 Steamer *Annie Faxon* $58 50 *Spokane*, $37 25, Celilo wharf boat

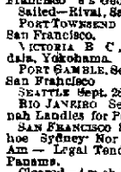
Letter from Rev. John McMurray.



I cannot but regard the discovery of Fellows Hypophosphites as a matter of devout thankfulness to a benign Providence

I have used it myself, and also recommend it to others and in variably found it to be of essential benefit.

In bronchial and other chest affections, in arresting incipient consumption and in lessening the distressing symptoms of this disease in its hopeless stages as well as in cases of nervous debility in giving tone to the system, it is undoubtedly a valuable remedy J McMURRAY

Newport, N S Methodist Minister.

The St. John *Telegraph* says The invention of Fellows Hypophosphites has become one of the valuable industries of the country unique of its kind and a credit to the Dominion of Canada.

Power of Speaking Restored.

NEWARK, Ont. D C March 30 1870

Two months ago my son lost his voice. None of the physicians could do him any good I obtained a bottle of Fellows Compound Syrup of Hypophosphites and strange to say my son's voice was restored two hours after taking the second dose

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against the evil habits that would be likely to produce disease in the and comprehensive manner. But when he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness after it is well understood that without health there can be no happiness

DR BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an unfailing new system only known to himself Diseases of the Kidneys and Urinary Organs including spermatorrhea Sexual Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the Stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual Thus accounts in part for his great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask or DR PAUL M BRENAN, the *Medical Lecturer* and read his sign on his door
